3 Bedroom, 2.00 Bathroom, 998 sqft
Residential on 0.13 Acres

Lynalta, Wetaskiwin, Alberta

This 3-bedroom, 2-bath bungalow has been thoughtfully renovated for modern living. The main floor has been reconfigured from three bedrooms to two, creating a spacious primary suite with a walk-in closet and incorporating laundry into the main bath. The wall between the kitchen and living room has been opened up, allowing for a bright and inviting living space. The fully developed basement offers an additional bedroom, a large family room, a 4-piece bath with jetted tub, and a generous storage area with secondary laundry hookups. Recent mechanical updates include a high-efficiency furnace, hot water tank, and central air conditioning. The electrical service has been upgraded with an additional panel to accommodate a hot tub. Significant exterior improvements have already been completed, including Hardie Board siding, all new windows (2007), and durable metal shingles installed by Interlock Industries (2018). The fenced backyard features a spacious deck and pergola. Double parking pads in both the front and back provide plenty of off-street parking, and the backyard can easily accommodate a future double garage while still leaving room to enjoy the yard. This home has been smoked in, but with the costly upgrades already complete, a fresh investment in paint and flooring will quickly make it feel brand new and truly your own.
